**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Fogarty on 01/18/07.

The application has been amended as follows:

Claims 7-8 are cancelled without prejudice.

***Allowable Subject Matter***

Claims 1-3 and 5-6 are allowed.

The following is an examiner's statement of reasons for allowance: There is simply no evidence in the prior art specifically teaching a cylindrical capacitor and a holder for holding the capacitor, the capacitor being held in a sideways position in the holding part with a heat shrinking resin tube interposed there between, wherein the radius of the arc of the holding part of said holder is substantially equal to or smaller than half the external diameter of the capacitor plus a thickness of said resin tube after shrinking so as to fix the capacitor in the holding part of the holder as in the claimed combination, furthermore there is no evidence making this modification obvious.

Art Unit: 2841

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
